Suunniteltu matka

EIOPA, Frankfurt, 16.3.2012

Matkan aihe

Groupe Consultatif'in sisäiset mallit ryhmän edustajia on kutsuttu osallistumaan seminaariin aiheista "Pre-application & approval processes for internal models" sekä "Approval processes for USP and AOF":

"The objective of the seminar is to promote the development of the common EU supervisory culture through providing a forum for learning, discussion and exchange of information about different approval processes foreseen in Solvency II, and to prepare both industry and supervisors for the entry into force of the new regime through enhancing their dialogue in such important matters. In particular, the seminar is primarily intended to provide participants with the opportunity to familiarise themselves with the approval processes foreseen in the Solvency II framework related to internal models (including pre-application process currently in place), undertakings specific parameters (USP) and ancillary own funds (AOF).

EIOPA has assembled this seminar open to industry representatives. Participants will receive some messages about EIOPA's work and thinking on the topics, in addition they will be able to have some exchange of views and discussions with supervisors."

Raportti

Kokouksessa käsiteltiin agendan mukaiset asiat; EIOPAn näkemys hakemusprosesseista Solvenssi II aikana:

- Sisäisten mallien ennakkohakemus ja hyväksyminen
- Yhtiökohtaiset parametrit hakemus ja hyväksyminen
- "Ancillary own funds" hakemus ja hyväksyminen

Kokousmateriaali (liitteenä) lähetetty Groupe Consultatif Internal Models työryhmälle sekä Suomen Aktuaariyhdistyksen solvenssityöryhmän jäsenille.
