Overview

Displacement patterns

Situation in host country

Intentions

To strengthen and promote an evidence-based protection response, UNHCR and its partners in Belarus, Bulgaria, Hungary, Republic of Moldova, Poland, Romania and Slovakia have been implementing a Protection Profiling and Monitoring exercise to regularly collect and analyze data about the profiles, needs and intentions of refugees from Ukraine and monitor changes over time. This dashboard presents the main results based on **23,054 interviews** conducted between **May and mid-August 2022**.

of respondents

23,054

Respondents by country

Methodology

Interviews have been conducted in border and transit locations (31%), reception and transit centres (21%), collective sites (8%), and assistance points in major cities (34%).

Trained enumerators from UNHCR and partners digitally collect the data through Kobo Toolbox, which is safely stored in UNHCR server.

While respondents are randomly selected to reduce bias, non-probability sampling is used and results cannot necessarily be extrapolated to the population of refugees from Ukraine as a whole. The results reflect refugees' situation and intentions at the time of data collection.

RESPONDENT PROFILE

99% of respondents are citizens of Ukraine. Most are women (86%), holding higher levels of education (49%) with university or higher degrees and 27% with vocational training) and with diverse professional experiences, particularly in services and trade related sectors.

Nationality

99 %

of respondents were Ukrainian nationals

Gender

86 %

of respondents were females

Age group and gender

Acknowledgements

We are grateful for the extensive involvement and support of UNHCR's partners, in particular: COMIN Nitra, Human Rights League, IFRC, InterSOS, Law Center of Advocates (CDA), Mareena, People in Need, REACH, Romanian National Council for Refugees (CNRR) and Slovak Humanitarian Council.

We are also grateful for the support of local authorities, civil society, international organizations and donors. Most importantly, UNHCR would like to acknowledge the resilience and strength of refugees from Ukraine, who continue to share with us their challenges, fears and hopes.
